The old politician's face relaxed into smile of pride, and he blushed like a rose as he replied:

# MRS. SPITTLEHOUSE'S HORRIBLE DEATH.

#### She Was Burned to a Crisp by Flames from an Exploding Lamp.

ISPECIAL TO THE EVENING WORLD, ELIZABETH, N. J., July 10. - Mrs. Frederick Spittlehouse, living at 1119 Chestnut street, Elizabeth, met with a frightful death last night. She was subject to apoplectic fits and it is supposed that in going around the house with a lighted lamp to secure the windows, as was her custom before retiring, she was seized with a fit and fell in the corner of the kitchen. The shock exploded the lamp and the blazing oil spread over the woman's clothing and also set fire to the wainscoting of the room.

Mrs. Spittlehouse's son and daughter were awakened by the stifling smoke in the bedrooms, and rushing downstairs found the kitchen in flames. By vigorous efforts the fire was subdued, when, to their horror, the children discovered their mother lying dead on the floor, her body burned almost to a crisp. Mrs. Spittlehouse leaves a husband and two children.

### COMMISSIONER DOWD TELLS WHAT IT CARRIED OFF.

More Than \$360,000 Was Drawn Into It Through Bad Management-The New Organization Made for Political Purposes McBean Tells How Boss Platt Wanted to Enter the Combine.

When the Senatorial Committee which is investigating Aqueduct politics met in the Court-House this morning. Senator Fassett had almost everything to himself, for Senator McNaughton was the only one of his colleagues present, and they sat at opposite ends of the long judicial desk.

Commissioner William Dowd, who was called to the witness stand yesterday afternoon, but did not give any testimony on ac-count of the lateness of the hour, was re-called this morning by Lawyer Boardman, who opened his examination by making a

good many inquiries about the awarding of contracts to the various bidders.

He wanted to know why it was that some of the contractors had sections awarded to them here and there instead of having a coninuous section given them according to their old.

In answer to these questions the Commis sioner said that he voted for the awards as he did because he thought it would be the best for the city treasury and would result in the long run in a saving of money.

Commissioner Dowd admitted that when

Commissioner Dowd admitted that when the question came up as to the removal of Lieut, H. S. Craven, the engineer of con-struction on the Aqueduct, which was pressed by the contractors, he had written a letter to the Secretary of the Navy requesting him to extend Engineer Craven's leave of absence, as they needed him on the Aque-duct

You believed then that Mr. Craven was a proper person to have charge of the con-struction on the Aqueduct?" asked Mr. Boardman.
"Yes, I believed him to be a thoroughly

competent man and that the city would be well served by retaining him."
"Did you hear who were trying to get Mr. Craven out?"
"Well, I heard gossip around town to the effect that the contractors were trying to have him recalled."
"What was the cause of this effort against

Aqueduct Board. Commissioner Dowd said that he had been opposed to the reorganization of the Board from the start because he didn't see the necessity of any change.

He and Commissioner Spencer went to see Gov. Hill together and urged him to veto the bill. Commissioner Spencer did most of the talking, and when he got through the Governor said he would consider what had been said before he did anything about the bill.

'Did you not oppose the removal of Secretary McCullough?'

'Yes, very decidedly. I thought his removal would be a great detriment to the city. He used to be of great assistance to me in the Finance Committee.'

He used to be of great assistance to me in the Finance Committee."

"Why was he removed?"

"To make room for Mr. Sheehan, I believe. He was afterwards taken back again in another capacity, although Mr. Sheehan could easily have done the work that was assigned to Mr. McCullough."

The witness said that the re-employment of McCullough resulted in a loss of \$2,000 a year.

McCullough resulted in a loss of \$3,000 a year to the city.

He further stated that in those times there was a great deal of rumor flying around in the air about political patronage in the Aqueduct Board. He didn't know but there was a good deal of truth in it.

The question of difference in cost to the city in the use of dry filling and rubble masonry was next brought up, and Commissioner Dowd thought that the estimates already given to the committee had been too large.

According to his notion the difference in cost which the city had been obliged to pay for rubble masonry was about \$361,000.

against the award."

Mr. Dowd further said that he had avoided Mr. Dowd further said that he had avoided any business relations with the contractors since he has been a member of the Board.

Mr. Nicoll in his cross-examination asked the witness what changes in expenses had occurred since the reorganization of the Board.

"When did this penitential feeling come over you?" inquired Mr. Nicoll.

"About three or four weeks afterwards, when I found that O'Brien & Clark's bid was

Contractor Duncan D. McBean was called to the witness staud by Mr. Boardman, who asked him if Mr. Dowd's testimony, as far as regarded ex-Senator Platt, was true, and he replied that it was.

Mr. Nicoll cross-examined him and he admitted that Mr. Platt first proposed to go into the Aqueduct business with him, but finally decided to give it up. He said he had not since been associated with Mr. Platt in business.

The indictments of the men arrested at the nstance of THE EVENING WORLD for running policy shops are expected to be returned by the Grand Jury to-morrow. Then a speedy trial will be urged and every effort will be made to hurry the "poke shop" keepers off to the penitentiary.

But The Evening World is not going to cease its prosecution of the policy writers with the conviction of a few of their number Warrants are still in the hands of the police unserved and more warrants will be issued as THE EVENING WORLD completes its chair

Before the news of the expose of his den

one as decrepit as is Stump himself.

The policy shop which the newsboy says

The name of the proprietor was not learned,
but a bartender in Lehner's saloon directed
the reporters to it and tried to push in the

Quite a lively and exciting stir was created in political circles in Long Island City to-day when it became generally known that Mayor missioner William H. Williams from office.

The Commissioner is a brother to Inspector Alexander S. Williams, of New York, was appointed to office about three months ago. He is a Republican, but was appointed to a Democratic administration office at the instigation of William H. Steinway.

On Sunday last, without consulting his colleagues, Commissianer Williams issued orders and directed Police Capt, Woods to supported Sunday baseball playing.

orders and directed Police Capt. Woods to suppress Sunday baseball playing.

This order was contrary to his colleague's wisnes, as it was to those of Mayor Gleason. The bail playing was not stopped, and Mayor Gleason said: "When I was elected to office, I promised the boys. I would allow thim to play ball; and I will not have my promise broken by Commissioner Williams."

A Walking Delegate's Lucky Capture. gate of the Progressive Painters' and a member of District Assembly 49, and Sophic Rosenberger, a pretty little Jewess, aged twenty, of the same ad-dress, were married to-day by Judge Pitshke at the City Hall.

Jouquin Sanches, manager of the Spanish Department of the New York Life Insurance Company at 346 Broadway, lives at the Wash. ington Cottage at St. George, S. I. He is about forty years old and has an invalid wife who requires a great deal of attention.

His income is over \$50,000 a year, and he filled his house with domestics—most of them French girls. When he came home from the city one night two weeks ago he found his wife in hysterics and complaining that the servants had created a disturbance in the

Mr. Sanchez visited the quarters of his servants at once and found that the culprits were Josephine Bernard, a very pretty girl and a recent importation from France, who acted as chambermaid, and her married sister. Celeste Kane, who was employed as cook. He ordered the sisters to go, but they refused point blank, and Celeste then accused Mr. Sanchez of betraying her eighteen-year old sister Josie and threatened to inform his wife of the terrible offense.

Their statement is that Mr. Sanchez begged them not to inform his wife, and he promised to pay each of them a full month's salary and \$200 additional at his Broadway office next day if they would leave the house at once.

They called at his office and found two New York detectives in the room whom Mr. Sanchez had brought from Inspector Byrnes's Wall street bureau and whom they supposed in their ignorance to be judges.

Mr. Sanchez, they say, repudiated his promise of \$200, and offered Josephine pay for fifteen days only, which she refused to accept, whereupon she and her girls left his office, threatening to go to Staten Island and tell Mrs. Sanchez of her husband's misconduct.

As soon as they left Mr. Sanchez telegraphed to the Staten Island police to hinder the women from entering his house, and hurried down himself by the next boat. He found Josie and Celeste trying to gain admission to the cottage, and had them arrested for blackmail.

The evidence before Justice Casey revealed the fact that Josephine and a daughter of Mr. Sanchez had a quarrel over a jacket that had been mislaid, and Mr. Sanchez discharged them after promising to pay full wages and \$500 as the price of Josephine's silence concerning his misconduct to her.

She swore she agreed to keep the secret from Misc. Sanchez on the payment of \$200.

"He swore on the ashes of his mother and on the heads of his children," said Josephine, "that he would pay me the money."

Mr. Sanchez received a letter from Josephine a few days ago addressed "Mr dear love," in which she said:
